BIZNOVEXA 2026

Spellcraft Coding(Coding Event)

Faculty Coordinator

Dr.M.Jeya sundari

Event Coordinator

Santhosh G (3rd yr) (coordinator)
Sivapriya K R (3rd yr) (coordinator)
Poojha M(3rd yr)
Vishal ganesh S (3rd yr)
Aswathan (2nd yr)
Balakarthick (2nd yr)
Ashwinjay (1st yr)
Anusha (1st yr)

About the Event

This is a coding competition conducted through a dedicated website platform. The event tests participants' **programming knowledge, debugging skills, and problem-solving ability**.

Participants will complete all rounds on the website within the given time limits.

Event Description

The event consists of three rounds:

- **Round 1 – Multiple Choice Questions (MCQ)**
- **Round 2 – Debugging**
- **Round 3 – Scenario-Based Coding**

- Participants must complete each round within the allocated time.
- Only qualified participants will move to the next round.

Event Details

- **Team Size:** Individual / Team(Maximum 3 members per team)
- **Total Rounds:** 3
- **Platform:** Official Event Website
- **Device:** Systems will be provided along with Internet access

Platform Guidelines

- Each team will receive **unique login credentials**
- Use only **one device and one browser tab**
- Do not refresh or exit during the contest
- Answers will be **auto-submitted after time ends**
- Report technical issues immediately

ROUND 1 – MCQ

Task

Answer multiple-choice questions based on programming concepts.

Duration : 15 Minutes

Requirements

- Attempt all questions within the time limit
- No external help allowed
- Select the correct option carefully

Criteria

- Accuracy
- Time taken

ROUND 2 – Bug Hunt (Debugging)

Task

Identify and fix errors in the given code snippets.

Duration : 30 Minutes

Requirements

- Submit corrected code through the platform
- Focus on logic and syntax
- Partial marks may be awarded

Criteria

- Correctness
- Problem-solving approach
- Code clarity

Task

Solve real-world coding problems based on given scenarios.

Duration : 75 Minutes

Requirements

- Write logic and/or code
- Explain approach if required
- Optimize your solution

Criteria

- Logic and efficiency
- Implementation
- Explanation
- Code quality

Topic / Question Allocation

- Questions will be **automatically assigned by the website**
- Questions cannot be changed

General Rules

- Start only after instructions are given
- Any form of **malpractice leads to disqualification**
- Switching tabs may be monitored
- Do not communicate with other participants
- Use of unauthorized resources is prohibited
- Coordinators and judges decisions are **final**
