About the Event:

This is a fun non-technical quiz competition designed to test participants general knowledge, creativity, memory power, and quick thinking. The event includes multiple interesting rounds such as logical puzzles, picture guessing, estimation questions, and fun brain challenges. Participants must rely on their thinking skills and teamwork to answer questions within the given time. The quiz focuses on entertainment and engagement while encouraging participants to think quickly and creatively.

Event Description:

The event has three rounds:

- Round 1 –Brain Bid(Think Bid Win)
- Round 2 – Pop and Reveal(Action guess Challenge)
- Round 3-Dub and Laugh(Voice Over Challenge)

Participants must complete the task within the given time.

Event Details:

- Team Size: Each Team consists of 2 participants only
- Total Rounds: 3
- Duration: 15 minutes per round

ROUND 1 – Brain Bid (Think Bid Win)

Description

At the beginning of the event, each team will start with 100 points. We will then display a question, and the question will have a point value assigned based on its difficulty level. After that, teams will bid on the question. If a team wins the bid and answers correctly, they earn the points. If they answer incorrectly, those points will be deducted from their total score. This will continue for each question. The whole event will have shuffled topics and each question will be unique. Some will include zoom-in or zoom-out images, others will be reverse-order challenges where you have to figure out something backward, and some will be like puzzles. There will also be memory-based questions, where teams need to recall where something was placed and then identify the correct location. The team with the highest score will move to the next round.

ROUND 2 – Pop and Reveal (Action guess Challenge)

Description

A lot box will be placed containing a total of 20 lots. Each team will have 2 members. One member from the team must pick a lot from the box and perform the action written on it. The other member will stand opposite and try to guess the action being performed. While guessing the action, the participant must continuously tap a balloon. If the balloon bursts or falls down, the team will be disqualified .The teammate must correctly guess the action within the given time limit. The teams that identify the highest number of actions correctly within the allotted time will be selected for the next round.

ROUND 3 – Dub and Laugh (Voice Over Challenge)

Description

In the final round, teams will be shown a short muted video clip. Participants must create their own voice-over for the clip in a humorous and creative way. The goal is to make the audience laugh while maintaining good coordination within the team. Teams will be judged based on creativity, timing, and entertainment value. This round ensures a lively and memorable conclusion to the event.
